HEY GIRLS!

In this issue, you can check out the story about my first day at Alfea School; I didn't exactly start out on the right foot! It was hard to adjust to a new school and new people, and well, new everything! Even my cell phone was all wrong.

But Stella was so great! I wouldn't even be here, if it wasn't for her. She didn't let me give up and helped me get into the school of my dreams! In the end, I was able to repay her friendship by stopping the Witches from totally trying to steal her scepter... well, you can read the story later. But the point is, that since I started classes at Alfea School, I've learned more than just spells and potions, I've found the magic of friendship.

Even though we all have different skills and unique personalities - we combine those strengths to face the battles of daily life... whether it is fighting the Witches, studying or even talking to a secret crush!

I mean, wouldn't it be great if you could wave a magic wand and fix your problems in an instant? Ha! But actually, even in fairy school you need the strength and support of good friends.

TTFN,

Bloom

Look Who's Blossoming at Alfea!

Exclusive Bloom Interview

Winx Reporter: How did you first learn that you have magical powers?

Bloom: I've had them since I was really young. To be honest, at first they sort of freaked me out. Something would happen, and I'd be like - "WOW - where did THAT come from!!?"

WR: Such as?

B: Well, once I accidentally changed my kitten from white to pink. My Mom sooo freaked! I hid my powers after that. Then when I got older, I realized "hey - this is totally cool!" That's when I decided I wanted to attend College of Alfea.

WR: What do you like best about being here?

B: This place is just awesome. It's only the best Fairy College in the Universe. And everyone's friendly and helpful - well, almost everyone. Headmistress makes me nervous... she's so beyond strict! And the Witches - well, they're just total bad news.

WR: Is there anything you miss from home?

B: Chili fries... just kidding. I miss my folks, of course. It was hard telling them goodbye, but we email each other a lot, so that's cool. I miss my room at home but Flora is an awesome roomie and we've fixed our room up really cute. Honestly, I am so thrilled to be here and to be learning how to use my powers; I wouldn't want to be anywhere else.

WR: Tell us more about your powers. I hear they're very strong.

B: That's what I'm discovering. I've found that if I concentrate really hard, I can tap into some really strong energy. It's a pretty awesome feeling - but it's a little scary too. I mean, what if I lose control - there could be some serious damage. I'm working really hard to learn to control my powers and make them do what I want them to do.

WR: Do you have a favorite subject in school?

B: I like concocting potions, and conjuring - you know - making stuff

appear. Wouldn't it be slammin' to conjure up a new wardrobe! I have a lot of work to do to catch up with the others. I'm not as advanced as they are. I'm lucky that Stella and the other Winx are so supportive.

WR: Do you have any words of fairy wisdom for our readers?

B: I guess I'd tell the readers that every single one of them has special powers. It may not be casting spells and stuff like that, but when you are true to yourself and work really hard at whatever you love, you'd be surprised at how much "magic power" you can find inside yourself. Oops - there's the bell for class. Gotta run.

WR: Well, Bloom, if there's one thing we've learned from you today it's the power of a great attitude. That seems to be a big part of your magic!

Good luck.

Almost Like Magic Glitter Nail Polish

Dying for some fab glittery nail polish, but short on allowance? Create your own with my recipe. It is easy as magic. Your nails will shimmer 'n' shine. And with a cute decoration, it makes a great gift for a BFF!

Materials:

1. Clear or colored transparent nail polish
2. Glitter
3. Ribbon or lace (optional)
4. Sandpaper (optional)
5. Glitter Pen (optional)
6. Baby food jar
7. Toothpicks
8. Small funnel

Glitter!

Instructions

1. Put some paper down first.
2. Now, pour nail polish from the bottle into the baby food jar.
3. Add glitter and mix with a toothpick. (Stir slowly.) Big tip — you can add more than one kind of glitter for a multi-colored look.
4. Use a small funnel to return the nail polish to its original container. Work quickly so the polish doesn't harden.
5. Now — use the sandpaper to rub off the writing on the nail polish bottle. Write your own message or draw a design with the glitter pen.
6. Decorate with ribbon or lace for a pretty gift — or to look terrif on your dressing table.

give yourself... A Perfect 10!

Your hands say so much about you and your style!

Are your nails chewed and grubby (YUCK!) or sleek 'n' smooth?
Follow these tips for turning fingertips into a PERFECT 10!

10 Steps Toward a Perfect Manicure

Classy nails are sooo easy. Just follow my ten-step method.

1) Get Your Tools Together. You'll need :
   - a) Nail polish remover
   - b) Cotton pads (not cotton balls)
   - c) Extra fine emery board
   - d) Bowl of warm water
   - e) Scented oil (optional)
   - f) Cuticle oil
   - g) Orangewood stick
   - h) Nail scissors
   - i) Hair dryer
   - j) Nail buffer
   - k) Base coat polish or ridge filler polish
   - l) Color polish (or that cool glitter polish you just made)
   - m) Top coat or sealant

2) Remove nail polish. Wash your hands. Clean UNDER those nails, too. Dry thoroughly.

3) Pick a nail shape that flatters your hands. Petite hands look best with almond shaped nails. Squared off ovals make short, stocky fingers look longer. Heavy hands look best with squared off ends.

4) Using the emery board file gently in a single direction at a 45 to 90 degree angle to the nail edge, going toward the center. Hint: Don't saw back and forth. It weakens the nail. And filing too deeply into the corners could start an infection.

5) Soak your hands in warm, scented water for a few minutes. Dry thoroughly. Use the orangewood stick to gently push the cuticle back. Never cut your cuticles. Use the nail scissors ONLY to cut hangnails. Tip: Keep your cuticles and hands moisturized to avoid hangnails in the future.

6) If you have nail ridges, buff lightly with your buffer or an extra fine emery board.

7) It is polish time! Make sure your nails are dry. Polish over damp nails can start an infection. Apply the base coat, or use ridge filler as a base. Let the base coat dry just until your nails are slightly sticky.

8) Apply the colored polish in thin layers, starting with the brush about an $1/8^{th}$ of an inch from the cuticle. Push gently down until the brush is just touching the nail above the cuticle. Now sweep the brush along the nail to the outer edge. Don't overwork the brushstrokes.

9) Let dry and repeat for two or three thin coats. Finish with top coat or sealant.

10) Hey - thumbs up! You're just given yourself a perfect manicure. Remember to give yourself a touch up every two or three days. Nothing's tackier than chipped polish.

Dance the Night Away Slumber Party

Start Here!

Get your friends together for a slumber party that really rocks. Invite them to an all-nighter of music, singing and dancing. Well - maybe not ALL night - you have to sleep sometime. Right?

Make invitations out of old sheet music or CD liners. Just cut them into invitation size squares. Write your invite info big and bold over the notes.

Ask everyone to bring their fave CD's and to wear something that reminds them of their favorite performer. **Give a prize for the best "costume."**

Assign each friend a number and put it on the CD's she brings. (Remind them to mark their CD's with their names, too. Don't want any mix-ups at the end of the night.)

Number slips of paper 1-100 (If your mom has an old record album sleeve, use that as your "hat.") **Drop the numbered slips into the sleeve.**

Take turns pulling numbers out - then playing the CD that has that number on it. Toss in some slips with surprise letters. If someone picks an A, they have to mime the song; if they pick a B, they have to make up a new dance step, etc..

If $ allow, pick up inexpensive prizes (hair clips, fun pencils, etc.) for each performer. Put them in a grab bag, and make sure everyone who performs gets a chance to pull one out before the night ends!

Keep a list of what you play - and by the end of the night, you'll have your own rockin' party music mix. **Have fun!**

Beauty Tricks!

Since ancient days, people have used plants and fragrances to improve their moods, relieve stress - and even for beauty aids. Here are a few homemade beauty tricks...and guess what - some of them are in your mom's spice rack!

Either plop a few drops of an essential oil of these fragrances into your bath - or put them in steaming water and inhale. Some make great teas - and some are perfect for your hair and skin. Remember though - if you have a problem that won't go away - see your doctor, puuuhleaze!

Lavender

- Inhale lavender-scented steam to calm and soothe anxiety, irritability or self-esteem.
- Breathe in lavender scented steam to ease a headache.
- Give yourself a steam facial with lavender to help clear up acne and blackheads.
- Use as a mild cleaning astringent.

Chamomile

- Inhale steam with chamomile to lighten stress - like right before a big test.
- Can't sleep? Sip a cup of chamomile tea before bedtime. Sweet dreams!
- If you're blonde, rinse your hair with chamomile tea and check the shine! (Brunettes can use a tea made of rosemary, instead.)

Peppermint

- Inhale peppermint-scented steam to energize your mood (especially when you're feeling down on yourself.).
- Soak tired feet in peppermint-scented water.

Beauty doesn't have to be expensive and it can certainly be fun!
